

CARLO Comfort Floor Lift

Safe and Effortless Patient Transfers

Providing a High Level of **Safety and Comfort**

Lightweight and easy to maneuver the CARLO Comfort is suitable for all areas of care, in addition to lifting and transporting the client the lift can also be used for bathing, showering and transfers to the toilet.

The unique Hanger Bar features an Electrical Positioning System (EPS) and Anti-Rotation Mechanism (ARM) that allows caregivers to be in direct contact with the resident, providing an additional feeling of safety. The EPS also contributes to easy repositioning from sitting into a lying position, simplifying transfers making them effortless and more accurate. Within the rotatable hanger bar, the resident is given ample space to feel comfortable and secure without touching legs or knees, all while being lifted into the desired care position.

CARLO Comfort is available with a safe working load of 185 kg (408 lb) and 230 kg (507 lb) for bariatric residents with low mobility. Also available with low legs to accommodate lower beds, stretchers and furniture.

Battery and charger are backwards compatible across all Handicare by Beka mobile lifts.

Caregiver and Resident Benefits

Carrybar with anti-rotation mechanism (ARM) and a free rotation area of 360°.

Electrically spreadable legs with low height to pass underneath baths and beds.

Four high-quality double castors, two of them with brakes, provide easy movement.

Electrical positioning system (EPS) in order to position your patients without any effort and force.

Electrical height adjustment with lowering of the carrybar to the floor. Also includes manual emergency lowering system.

Cable remote control with display of the charging condition of the battery, failure diagnostics, service.

Light construction. Chassis, lifting column and components made of 100% aluminum.

Wide choice of 4-point slings with safety clip system.
