

## Dumbwaiters

Butler Mobility provides premium quality electric dumbwaiters for residential, commercial and food service applications. The Butler Mobility modular elevator system offers the highest quality, most flexible line of dumbwaiters on the market today, at very competitive prices.

Our dumbwaiters are available in 8 standard sizes or can be customized to fit your needs. We make cars that open on one, two, three, or even 4 sides and corners too. Load capacities range from 100 lbs to 450 lbs and travel up to 7 stories.

## ABOUT

Butler Mobility products are built and assembled at our manufacturing facility in Lewisberry, PA. Butler Mobility has manufactured dumbwaiters since 1958 and wheelchair lifts since 1968.

We produce “The Lifts that Last™” – customizing each lift and installing it into your home, to provide the independence and convenience you deserve. For over half a century, our products have improved quality of life for customers in their homes and businesses through safety, freedom of movement and convenience.

Our wheelchair lifts and dumbwaiters are designed and manufactured with a strong emphasis on quality, dependability, and especially customer safety. We assemble our lifts and dumbwaiters with minimal moving parts to ensure low maintenance and reliability for many years of service. It is not unusual for a Butler wheelchair lift or dumbwaiter to work for 25 or 30 years without service. That’s why they are “The Lifts that Last™”.

## MOBILITY PRODUCTS

*“The Lifts that Last™”*

## Inclined Platform Lifts

Our Inclined Platform Wheelchair Lifts are custom built to your size specifications and needs, and are easy to install and maintain.

Our inclined platform lifts are ADA-compliant and meet or exceed all National Safety Code requirements. All of the electrical components are UL® certified, and the unit requires only standard household current and a dedicated standard outlet.

Butler wheelchair lifts are designed for installation that couldn't be easier or less invasive. The rails attach at the top and bottom of the stairs with no modifications needed to walls. And Butler Mobility's IPL is certified to lift 750 lbs (350 kg) capacity."

## Vertical Platform Lifts

Butler Mobility Products provides and installs vertical platform lifts manufactured by RAM Elevators and Lifts. This line of vertical platform lifts is safe, reliable and easy to operate. We can provide a vertical lift for practically any accessibility need: residential, commercial, indoors, outdoors, porch, enclosed, portable or a home elevator lift.

RAM products are designed to provide best in class reliability of use. Options such as the "Tower of Power" can also ensure that the Lift is functional should your local power grid fail... don't get stranded when it really counts.

## Stairlifts

We are the south central Pennsylvania distributor and installer in for Stannah Stairlifts. Stannah is a family owned business with over 140 years of experience in the lifting industry – challenging and setting standards in stair lift design for more than 40 years – with over 600,000 satisfied customers.

Stannah stairlifts are thoughtfully designed to be safe, reliable, attractive and easy to use. A practical, easy and inexpensive solution to total access of your home!
